Section 1: Triodos Investment Management

Order and settlement process

The Triodos investment products on offer are made up of the:

- Triodos Impact Investment Funds: The Triodos Global Equities Impact, Pioneer Impact, Future Generations and Sterling Bond Impact funds fall within this category.

All orders in the Triodos investment products on offer are done so outside of regulation of markets in financial instruments (MiFID II) 'trading venues'. This is because MiFID II defines a trading venue as a regulated market, multilateral trading facility or organised trading facility and all orders are either processed by Triodos or our third-party providers who do not fall into these categories. Orders are processed and settled as per the table below:

	Sterling Bond Impact fund	Equity, Pioneer and Future Generations funds

- The WM/Reuters exchange rates are provided by State Street subsidiary the WM Company and Thomson Reuters – charges apply, see Charges below
- The Triodos Sterling Bond Impact fund has a base currency of sterling. The other Triodos investment funds detailed in the table above have a base currency of euros. When you purchase or sell investments with a base currency of euros, your sterling is converted into euros or back from euros into sterling. Dividends from these products are also converted from euros into sterling. The rate of exchange used to convert your sterling into euros or back again is available upon request.

- **Annual Service Charge** – Please be aware that the sale of shares to cover the Annual Service Charge is classified as a disposal for Capital Gains Tax purposes and may need to be declared to HMRC (unless held inside a stocks and shares ISA). For further information please consult a tax specialist or HMRC
- **Ongoing Charges Figure (OCF)** – (also known as the Total Expense Ratio or TER) - is the ongoing costs of running the funds. The OCF includes the fund managers Annual Management Charge and other expenses of running the fund, such as the board of directors and audit fees. The Annual Management Charge is the charge taken by Triodos Investment Management to select investments based on their sustainable and financial performance.

The OCF is expressed as an annual percentage and is calculated and deducted from the fund daily. The charge is reflected in the value of the fund and so you do not need to pay for it separately. The charge may vary over time. The maximum Management Fee and Service Fee' can be found in the Prospectus. The OCF also includes Other Expenses which are variable fund expenses, see the Prospectus and Key Investor Information Documents for further details.

Please note there may be a difference in the OCF for the distribution and capitalisation share classes, where this is the case, we will always show the highest figure. The OCF's are correct as of 8 January 2026 and may vary.

Share prices for the Triodos Global Equity Impact, Pioneer Impact and Future Generations funds are converted between sterling and euros when buying and selling, and a fee of 0.2% of the exchange rate used is charged. This fee is not applied directly to individual investments, it is shared by all euro and sterling investors in the fund and is already accounted for in the published share prices.

The Triodos Impact Investment Funds use Partial Swing Pricing. See the FAQ "What is Swing Pricing?" on our website for more details.
